

Logic | Floor Levelling System

Accommodates floor levels from 70mm - 148mm

CONFORMS TO NEW EUROPEAN STANDARDS
BS EN 14904 Type A4

Flexibility & Innovation

Logic Floor Levelling Systems provide an easy new way of levelling floor battens - solving the problem of uneven sub-floors and varying floor depths with a unique dual-height cradle design.

Economy & Simplicity

Logic cradles save builders time and money by removing the need for highly accurate sub floors or expensive levelling screeds. Logic cradles save contractors time and money by making site surveys easier, simplifying materials procurement and reducing installation time. Each cradle size can accommodate sub-floor deviations of up to 30mm! Logic cradles are available in two types; sports or acoustic, and in 2 sizes:

Cradle C1 dual height 16/30mm
Cradle C2 dual height 45/60mm

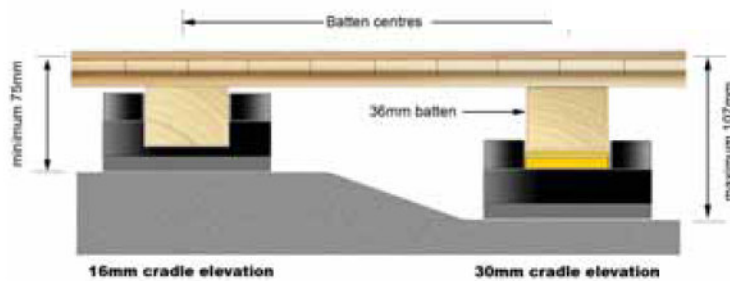

Quality & Durability

Logic dual-height cradles are injection-moulded from high quality, tough and durable recycled ABS with a special resilient foam pad fixed to the underside: sports or acoustic depending upon impact. Logic's innovative packer design enables fast, effective levelling and glueless installation. Each packer has a locator nib which slots into the cradle to prevent dislodging under impact.

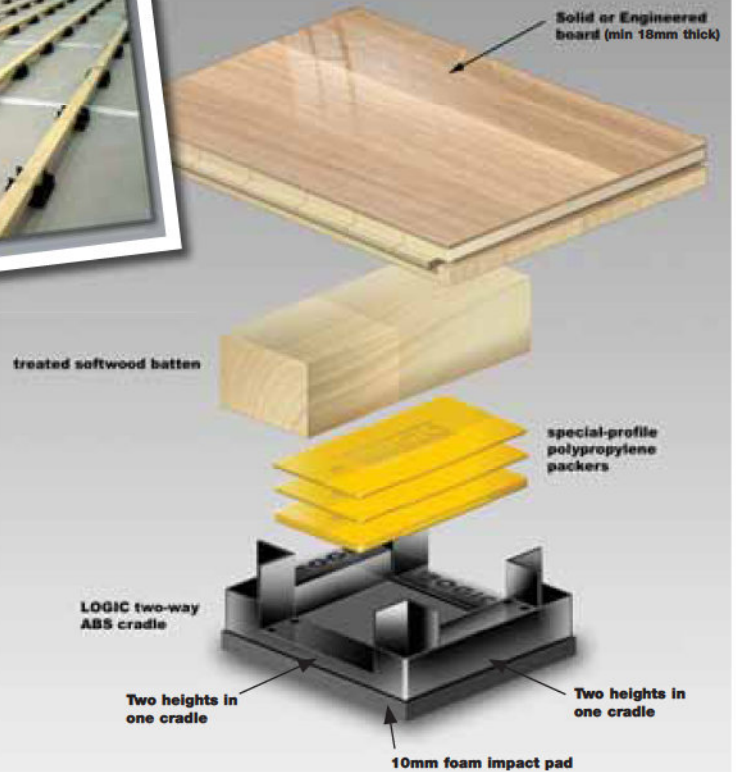

Tested & Certified

Logic Floor Levelling Systems have been tested and certified to the latest British and European standards. Used in conjunction with leading floor brands Junckers and Boen, Logic Sport Cradles achieve the highest level of sports performance. Logic Acoustic Cradles fully conform with acoustic standards for impact sound reduction.

Greenbats

Kingléy™ | Battens are kiln dried and pressure treated, help raise floor levels and can be laid loose over a DPM. Foam backed battens give excellent sound reduction.

Foam backed battens are tested to certain requirements of BS7044:Part 4:1991.

Coverage | Approx. 3.6 lin m of batten per m² at 305mm centres.

*Thickness includes batten and foam.

		Length	Width	Thickness	
450001	Plain	1.8M	x 46mm	x 22mm	(per Lin M.)
450002	Plain	1.8M	x 46mm	x 36mm	(per Lin M.)
450003	Plain	1.8M	x 46mm	x 48mm	(per Lin M.)
450004	Foam Backed	1.8M	x 46mm	x 31mm*	(per Lin M.)
450005	Foam Backed	1.8M	x 46mm	x 45mm*	(per Lin M.)
450006	Foam Backed	1.8M	x 46mm	x 57mm*	(per Lin M.)

BluBat Battens

Junckers | Foam backed complies with BSEN14904.

*Thickness includes batten and foam.
