

K – 250 DPM

Kingley K – 250DPM is a polythene damp proof membrane to protect the timber flooring from moisture.

Lay the K - 250 down the length of the room and overlap by 10cm and tape down using the Kingley 96mm Jointing Tape. Make sure that there are no sharp objects on the subfloor that could puncture the dpm.

Thickness; 250 micron polythene damp proof membrane.

Roll Size; 100sqmetres.

Vapour Protection;

Water Vapor Transmission Rate ($\text{gm}^{-2}\text{day}^{-1}$) (25°C/75%RH)	0.50	BS 3177
---	------	---------

Water Vapor Resistance (MNsg^{-1}) (25°C/75% RH)	410	BS 3177
--	-----	---------
